Features

- Easy to use - push down all segments between desired ON and OFF times.
- Override Switch inbuilt into unit
- Security - Give your home a live in look
- No Pins to Lose

Overview

This is a 24hr easy set timer. It magically turns appliances on or off automatically for energy-saving and convenience. It's unique shape means it doesn't block your whole double powerpoint - it leaves the adjacent power outlet free for other appliances. Use it with festive lights, lamps, heaters, heated towel rails, dryers, washing machines, coffee machines and other kitchen gadgets.

Quality You Can Trust

Installation

- Repeats the settings each day without reprogramming. For repetitive tasks, this is the easiest way to switch on and off at the same times each and every day. The 15-minute segments give control to within 15 minutes of switching times.
